-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11 December 2006 has been entered.

***Response to Amendment***

2. The declaration under 37 CFR 1.132 filed on 11 December 2006 is insufficient to overcome the rejection of claims 1-24 based upon Zikeli et al (U.S. Patent 5,607,639 A) as set forth in the last Office action because: Exhibit "A" is missing (note that while the heading of the declaration states "37 C.F.R. § 1.131", the declaration has been treated as filed under 37 CFR 1.132 because the declaration does not attempt to antedate the reference).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1732

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claims 1-11 and 13-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Graveson et al (WO 96/21758 A1) in combination with Chang et al (U.S. Patent Application Publication 2002/0025433 A1).

Graveson et al (see the entire document, in particular, pages 2-7; Figure 1) teaches a process of, and apparatus for, making continuously molded bodies as claimed, except for the aspects of the shielding zone (in particular, the shielding zone

Art Unit: 1732

preventing cooling of the extrusion orifices), which are taught by Chang et al (see the entire document, in particular, paragraph [0043]; Figure 6) and such would have been obvious to one of ordinary skill in the art at the time the invention was made in Graveson et al in view of Chang et al principally in order to protect newly-spun bodies from immediate contact with a quench medium.

***Allowable Subject Matter***

6. Claim 12 is allowable over the prior art references presently of record.

***Response to Arguments***

7. Applicant's arguments with respect to claims 1-24 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leo B. Tentoni whose telephone number is (571) 272-1209. The examiner can normally be reached on Monday - Friday (6:30 A.M. - 3:00 P.M.).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina A. Johnson can be reached on (571) 272-1176. The fax phone number for the
